

## Photo Studio Workshop

Plotnet is offering a Photo Studio Workshop to get designers comfortable working in a professional studio setting. Learn how to maneuver around professional studio equipment to effectively shoot portfolio-ready images. Discover basic lighting techniques and setups to highlight your work.

The workshop will cover the use of advanced photography equipment including studio lighting, lighting attachments, soft boxes, and backdrops. Additionally, students will learn manual exposure techniques using f-stops and shutter speeds, auto vs. manual focus, depth-of-field, composition, and camera handling.

Taught by Rayko & Harvey Milk Photo Center instructor and talented photographer, Andrei Riskin.

Open to students of all levels and experience. We can accommodate 8 to 12 students, and the workshop will take 1.5 - 2 hours.

### Photo Studio Workshop

Taught by: Andrei Riskin

Date: September 8th and every Thursday thereafter

Time: 10:30am – 12:30pm (class times vary, please refer to our Calendar)

Cost \$50

### Workshop includes:

- Hardware/software set up
- Use of digital camera for product photography
- Introduction in lighting set-ups for product photography.

We can arrange a special session if you have a group of 8+ people. Please contact us at [classes@plotnet.com](mailto:classes@plotnet.com)

Students who are interested in renting Plotnet's Photo Studio after taking Workshop will get a **\$50 discount** on Studio Rental session!

To reserve a spot in the workshop, you will have to book in advance using our online Calendar Application at <http://plotnet.com/calendar.php>
