Studio Photography Services

Plotnet provides Studio Photography and Color Management services for Academy of Art students at a discounted rate.

The photographs are priced at $125 per/shot or per/hour. These images include complete Color Management, which means you are getting a Print Ready file.

Per/hour pricing is applicable to shots of printed materials like books, letterheads, flat art, etc. Those shots are cost effective when you don't need to setup custom lighting conditions for each shot, but instead are looking for the same lighting on multiple shots. We can often get 20 or more shots like these done in 1 hour.

Expert Photoshop Services are available for students at $50/hour.

Studio Photography and Color Management services are a perfect complement to our Packaging and Portfolio Printing services.
